### Mobile Footspa

The foot section of the 601 can be tilted down by 91°. This allows it to be perfectly used for foot treatments in combination with the optional mobile FootSpa.

### Swiveling and lowerable arm support

The laterally swiveling and lowerable arm support gives the necessary space for facial treatments or to work on the head, neck, or décolleté area.

### Holder for (magnifying) lamps

A surprising and handy feature is the extendable magnifying lamp holder made of stainless steel. Designed to fit the Circle LED magnifying lamp, it simply disappears under the bed when not in use.

### Multifunctional headrest

This newly designed headrest offers full flexibility for every requirement. Depending on preference, a round or U-shaped face cradle can be used.
